FINANCE: Phylis Dryden made a motion, seconded by John Gurganus, and agreed by the Board to pay all the bills as submitted.

Richard Pflueger asked if anyone was opposed to paying the bills or if anyone wanted to see the bills.

Gary Redinger asked if there was an issue with putting them on the table for the public to view.

Michelle asked if there is a way for residents to get a list of what is paid every month.

Julie stated the bills get filed by Antoinette.

John Brenner asked if Michelle realizes how much paperwork that would be and if the original bill gets put out the chances of getting lost and losing the township records.

Julie stated the original bills are needed for the township audit.

John stated he does not think that would be a wise decision.

Dave Snyder asked are those seen from the previous month.

John stated basically they are being viewed from the previous month.

Gary asked if something can be done if a bill is over a certain dollar amount to know if there is something that is high in dollar value such as over \$1,000 or \$2,000.

John stated the township's heating and electric bills are easily over \$2,000.

Richard asked if residents wanted to come to the township on Monday morning when he signs checks and vouchers to look over his shoulder.

Phylis stated they are all listed in the minutes so if residents have questions.

Antoinette stated what is paid is not listed in the minutes.

Phylis stated if residents have questions they can ask based on what is listed in the minutes.

Julie stated residents would not know what to ask.

Antoinette stated what is in the minutes is checks the township received.

Gary asked if residents came during the townships office hours, could they look at the vouchers.

Paul stated under the right to know request a resident could.

Gary asked with the right to know request, the commissioners do not need to be there correct.

John Brenner stated no the commissioners do not need to be there. John stated if there is something specific a resident is looking for to submit a right to know request. Legally residents should be submitting a right to know request for viewing bills and asked Paul to verify.

Julie stated it would have to get requested as the township clerk does not have access to Antoinette's records.

John Brenner stated to view the bills it would have to go through the right to know officer, who would get ahold of Antoinette for the bills that are requested.

Gary asked who the right to know officer is.

John Brenner stated Paul is the township's right to know officer.

Michelle asked if residents want to look at the bills every month, do they have to send Paul a right to know every month to view them.

Paul stated yes.

John Brenner stated that is state law and not just a West Lebanon Township Law.

Paul stated the board can say otherwise but that is the appropriate way to go about it.

Richard asked if residents can just look over his shoulder when he is signing checks and vouchers.

John Brenner stated that is fine if Rick wants to arrange for residents to come to the township.

Gary asked how frequently vouchers are signed.

John Brenner stated it could be 2-3 times a week.

Richard asked if Gary wanted to come to the township every time he is signing vouchers.

Gary stated he is not coming to the township every time Rick is there to sign vouchers and it was a question he had. It was brought up a couple months ago and assumed there was going to be a list of outstanding bills provided to residents. Gary asked if they are put into a spreadsheet.

Antoinette stated she puts all bills that a voucher was written for into a spreadsheet, that includes the check number and date it was paid. After the commissioners sign the vouchers, they get filed.

Jon Litz asked how many vouchers are written out each month on average.

Antoinette stated that is hard to say because of having the normal electric, water.

Jon asked on average is there about 30-50 bills or is it over 100.

John Brenner stated well over 100 bills a month.

Michelle stated since she started looking at the bills after Mr. Snyder said something, there is a lot in the folder. Michelle has been coming in once a week to look at the bills.

Gary asked if the commissioners see something unusual in the bills, they do question it and do not just sign it.

Phylis stated the commissioners put sticky notes on the voucher with the question.

Gary asked if the commissioners are reading the bills they are signing.

Julie stated yes as he has had Antoinette and herself hold bills until he gets to the bottom of things.

Gary stated as long as the township is reading them and not just rubberstamping them.

John Gurganus stated he looks at all the vouchers Antoinette writes out and compares to the bill attached to it.

Phylis stated she looks at the voucher and the invoice and packing slips attached to the invoice.

John Gurganus stated there is a lot of items going into operating a township.

OLD BUSINESS

The secretary stated no old business.

NEW BUSINESS

Justin Snyder made a motion, seconded by Michelle Testerman and agreed by the board to adopt Resolution 2023-09 for applying for a local share account for a project involving placing a pickle ball court, and a gaga pit at the township's recreation area and authorizing John Brenner to apply for local share account with DCED.

Gary Redinger asked if it was one pickle ball court being put in.

Michelle stated yes because the basketball court and gaga pit being put in the one area.

Gary asked if the basketball court would replace the half court currently there.

John Brenner stated that is getting ripped out.

Julie asked who the local share account is with.

John stated with DCED.

Julie stated she was not sure if the township is doing it with another township or municipality.

Jon Litz asked is there a township cost to this project.

Michelle stated at this time they do not know. The grant has to get applied for first before saying the township owes an amount.

Julie asked is this similar to the trees getting cut down and the walking trail?

John Brenner stated yes. The commissioners have the resolution and if someone reads it, it would make more sense.

Michelle read resolution 2023-09.

Gary asked if the township was putting lighting in as well.

Jon Litz asked by adopting the resolution, does this state the project is ongoing and the township will pay the difference not granted with the local share account or is this only to apply for the local share account.

Michelle stated the resolution is to apply for the local share account.

Jon asked at once the information is gathered will the board decide to continue or deny the project at another meeting.

Michelle stated yes because at that point the township will know how much they will have to contribute.
